Living with EMF radiation.

Conscious use and handling of mobile phones, smartphones, WIFI, cell towers and the like.
“It’s easier to get free Wi-Fi than it is to get free water and people act like nothing is wrong with the world.”
We cannot stop radiation, but we can help you to protect yourself and your personal environment.

Not many people are willing to live without electronic devices and digital comfort these days. Smartphones have become a part of our daily life just as wireless Internet access, Bluetooth headsets or the convenient GPS navigation system in the car. Unfortunately, all these devices as well as the mobile phone masts and transmitter stations that enable modern communication emit considerable electromagnetic radiation.

Our objective is to explain the indiscernible impact this exposure has on the human organism and to show you how you can effectively protect yourself and your environment from the pathogenic effects of electromagnetic radiation: at home, on the road, at work and in your sleeping area.

Let us inform and inspire you and, best of all, experience the benefits of our products yourself!

Cordially yours,
Friedrich J. Bauer
Wiesbaden, July 2014
MOBILE PHONES, SMARTPHONES, UMTS AND LTE

Approx. 4,000 million mobile phones worldwide

UMTS technology allows for fast Internet access and transmission of moving pictures.

LTE (Long Term Evolution), the newest 4th generation mobile phone technology is designed for an even faster transmission of extreme quantities of data.

More and more people feel the health impacts of increased radiation or suffer from electrohypersensitivity.

THE ELECTROMAGNETIC FIELD IS GROWING
ELECTROMAGNETIC FIELDS AND THEIR IMPACT.

Electromagnetic radiation refers to all artificially created fields in our modern high tech world that may affect us and be potentially hazardous.

A distinction is made here between different types of frequency ranges:

- Low frequency electrical and magnetic alternating fields, such as power lines, traction current and domestic current from electrical devices or lines.
- High frequency electromagnetic fields such as microwave ovens, mobile phone and TV towers, mobile phone transmitters, cell phones, smartphones, wireless phones, bluetooth, and WIFI. These have a frequency of up to 300 gigahertz, which means that the number of impulses ranges somewhere in the billions.
- And the risks are on the rise.

The introduction of new, powerful technologies such as UMTS and LTE also means increasing data transfer rates and with that pulsed radiation to which we are exposed everywhere.
Therapy-resistance due to electrosmog?

Especially homeopaths and naturopaths find that electromagnetic exposure hinders treatment success. The indiscernible continuous stress disrupts the cell communication and diminishes the body’s ability to heal itself.

Most naturopathic therapies are regulation therapies aiming at activating the self-healing mechanisms. This is why it is so important to determine a patient’s electromagnetic exposure before starting a treatment and to neutralise possible interference fields.

For the human body electromagnetic radiation means permanent stress.

Because humans are electromagnetic beings as well. All of our cells, tissue and organs communicate via fine electrical signals, so-called biophotons. These impulses move within a certain frequency range, namely that of natural light. Artificial electromagnetic frequencies interrupt these natural circuits and create a delicate imbalance. The radiation may weaken the immune system and the body’s vitality and the organism’s self-regulation and responsiveness.

The resulting health problems and physical discomforts individually are different and often not recognised as directly related to electromagnetic exposure. Fatigue, tension, sleep disorder, headaches, tingling legs or hands, depressed mood, lack of drive and overall lassitude are often a sign for elevated radiation exposure.
In 2011, the WHO’s International Agency for Research on Cancer evaluated high frequency radiation as “potentially carcinogenic” for humans.\(^1\) A new Swedish study now confirms this assessment and, based on its results, demands upgrading it to “carcinogenic”.

The Swedish research group led by Professor Dr. Lennart Hardell found a 7.7-fold increased risk of developing brain tumors with long-term use of cellular and cordless telephones.\(^2\)

Here some examples:

- In its annual risk report, the Swiss reinsurance company Swiss-Re classifies mobile communications as high risk for insurers.\(^3\)
- An Italian court recognised the extensive mobile phone use of a manager as the cause for his brain tumor.\(^4\)
- In schools with WIFI children and adolescents frequently suffer from concentration loss, headaches and intermittent vertigo. France is now reacting to this situation by providing Internet access in schools and day nurseries via cable where possible.\(^5\)
Over the last 15 years, the effectiveness of the GREEN 8 GOLD® technology has not only been comprehensively tested at the Institut für Potentialforschung (research institute) in Vienna, but has also proven successful in thousands of individual studies. Today, GREEN 8 GOLD® products are recommended by therapists, homeopaths, health advisors and physicians in 14 countries around the globe and used by individuals who want to improve their quality of life with positive energy.
For a better understanding:

- The negative frequency is superimposed by a positive counter frequency.
- Radiation is thus effectively neutralised and harmonised.
- The organism is protected from exposure.
- Typical discomforts disappear.

As an electromagnetic being, a person reacts with his own body’s vibrations to exterior vibrations. When cells are disrupted by negative information, biological processes are thrown off balance resulting in stress for body and mind.

The GREEN 8 GOLD® technology neutralises the negative information of the electromagnetic fields and thus harmonise it for the body.

**Behind this is the principle of interference:** in a 180 degree shift a positive vibration is set against the negative interference frequency. It harmonises the negative information gently and securely eliminates the stress on the organism.

The effect of the GREEN 8 GOLD® and the TRANSFORMER products is comparable to the principles of homeopathy. Although not one molecule of the original substance or of any other ingredient can be analytically traced in a homeopathic preparation, a reaction occurs.

The effect of these preparations is based on the INFORMATION stored in the carrier substance. These subtle electromagnetic energies are transferred to the organism and resonate there. The contact between the person and the product results in a resonance coupling that eliminates the discomfort. This process causes a measurable and immediate change of the electrophysical parameters. What are the indications? Typical complaints such as inner tension, headaches or sleep disorders disappear.
The effectiveness of our products cannot be revealed by means of physical measuring methods, a fact they have in common with other therapy approaches valued worldwide such as acupuncture or homeopathy. However, tests measuring direct body reactions clearly indicate the protective effect of the GREEN 8 GOLD® technology.

**HERE ARE THREE EXAMPLES**

- **Biofeedback tests**
  
  The measurement of the body’s reaction e.g. with biofeedback systems or electro-acupuncture according to Dr. Voll – to a mobile phone call without GREEN 8 GOLD® shows a significant stress level in the organism. However, it remains in perfect balance with GREEN 8 GOLD®. This was not only confirmed by comprehensive tests conducted by physicians and homeopaths using the GREEN 8 GOLD® products but also by a study conducted by the Institut für Potentialforschung in Vienna (research institute) with a number of probands using the PROGNOS system.

- **Kinesiology**
  
  The body knows best which substances and materials it tolerates and which it does not. You can perform a kinesiological muscle test yourself and attain direct feedback from the GREEN 8 GOLD®. To do this, a second person and an active mobile phone is required. Take the phone in your hand and stretch out your arm at shoulder height. Have the other person, your tester, apply subtle pressure on your lower arm. Normally, you would be able to withstand that pressure and your arm would not move down. When you receive a call on your mobile phone, it is very easy for the tester to push your arm down. The activated mobile phone weakens your muscles so that you are unable to withstand the pressure. Now attach the GREEN 8 GOLD® to your phone and repeat the test with the tester applying light pressure on your lower arm. You will see that you can easily resist it.

- **Blood tests**
  
  For a dark-field microscope examination a drop of blood is taken from a subject.

  **The first image** shows the blood cells moving freely in a natural flow.

  **The second image** shows the subject’s blood after a 10 minute mobile phone conversation. The blood is agglutinated and its movement restricted in a so-called rouleaux formation.

  In the next test phase a GREEN 8 GOLD® is attached to the mobile phone. Again, the subject’s blood is examined after a 10 minute phone call.

  **The result:** no visible rouleaux effect.
Today, over 4,000 million mobile phones and smartphones are in use worldwide and recent studies assume that on average a user uses his mobile phone every six minutes and up to 150 times per day. Many studies now confirm the negative impact of high frequency mobile phone radiation on the human organism and a growing number of physicians warn about the dangers of cell phone use. Although not everyone feels the effects of electromagnetic radiation, it is important to be aware of the risks and to protect oneself effectively.

**THE GOOD NEWS IS:**

You don’t have to give up your mobile phone. GREEN 8 GOLD® neutralises and harmonises the pathogenic radiation effectively.

Simply insert the self-adhesive film into the battery compartment or on the back of your cell phone, or attach it to its protective cover. GREEN 8 GOLD® provides lasting protection from the known discomforts and thus facilitates unencumbered trouble-free phone use. GREEN 8 GOLD® is designed for the newest mobile communications technology (3G, 4G and LTE) and highly recommended for all smartphones (iPhone, Blackberry, etc.) and mobile phones. But cordless DECT telephones and iPads should be equipped with a GREEN 8 GOLD® as well to harmonise the daily use of modern technology. Especially for frequent and intensive telephone users, GREEN 8 GOLD® ensures that typical discomforts, such as hot ears or headaches, disappear quickly and a person’s ability to concentrate improves. This is not only documented by comprehensive studies with EAV and biofeedback systems, but also by the many user reports our company receives and has collected over the years.
In order to harmonise your work environment and effectively protect your home office, BAUER BIOTEC developed the TRANSFORMER 22. Placed near your router, the TRANSFORMER 22 neutralises the pulsed radiation lastingly and harmonises the surroundings in a 10 - 20 meter radius. Typical symptoms such as stress, fatigue, blurry vision and inner tension subside. For computers, phones and other electronic devices we recommend additional protection with the corresponding GREEN 8 GOLD®.

RELIEVING THE WORK AREA

Health departments and health insurers assume that 30% of all illnesses today are environmentally related, whereby the greatest health stressors are found in a person’s immediate surroundings – at home and at work.

Computers, printers, scanners, fax machines and cordless phones – in a modern office the electrosmog exposure is often concentrated in the smallest space.

And the continuous radiation exposure is even further intensified by the increasing use of WIFI and/or bluetooth. Wireless connections are established via pulsed radio waves.

The number of transmitted pulses and the associated radiation exposure depends on the data throughput and WIFI frequency.

The field strength of a WIFI system in a room frequently exceeds that of nearby mobile communication stations.
In the 1930s, the French radiestesist André Bovis developed the "biometer", a radiestetic measuring method to determine the energy quality in rooms, houses, materials and food. The lower threshold is at 6,500 BOVIS units. Anything under that value is considered unhealthy. However, for the most part the values worldwide only range between 10,000 and 15,000 BOVIS. After installing the TRANSFORMER 28-4G, the value rises very quickly to a noticeably better reading between 8,000 and 13,000 BOVIS. A relief for humans, animals and plants.

**Protection benefits reported by our Customers:**

- Negative feelings and sensations like headache, fatigue, restlessness and agitation will disappear
- Your sleep becomes calmer and more relaxed
- More energy
- More mental clarity
- Hyperactivity is calmed down
- Greater harmony in the family, household or office
- Stronger immune system
- Lower chance of getting ill

Many people nowadays live in close proximity to mobile phone masts or other transmitters like pylons and often suffer from the electromagnetic exposure. In such cases, the TRANSFORMER 28-4G with its ability to restore the natural energy quality provides an effective solution. Based on the principle of interference, it neutralizes radiation lastingly and creates a protective zone around your apartment or house in a 33 – 66 meter radius. The Bovis value, i.e. the energy quality in a room, increases significantly and measurably, which is noticeable, for example, in improved plant growth.

The positive effect on the human organism is immediately apparent. Discomforts such as stress, inner tension, headaches and sleep disorders pass and at the same time individuals experience a significant energy boost. Our customers report that after installing the T-28-4G they feel more balanced, more productive and energetic, they sleep better and wake up more refreshed.

The T-28-4G is designed for the new generation mobile phones and neutralises the increased radiation intensity of 3G/4G and LTE transmitter stations.
In order to consciously handle and live with radiation, BAUER BIOTEC developed a comprehensive product line for different needs and applications. All products have been tried and tested over many years worldwide they are engineered, manufactured and designed in Germany.

**RELAXED BEHIND THE WHEEL**

An average car nowadays contains 4000 to 8000 meters of cable and wiring, not including on-board electronics, GPS and Bluetooth for hands-free cell- and smartphone use. At the same time, cars act like a “Faraday cage” which even further increases the radiation exposure. Therefore, particularly frequent drivers report about typical discomforts such as loss of concentration, fatigue and tension. For these individuals we developed the GREEN 8 GOLD® Car Harmonizer that neutralizes the radiation in the car and facilitates a relaxed, unencumbered driving experience.

**STRENGTHENING THE BODY’S OWN ENERGY FIELD**

In order to strengthen the body’s own energy field we offer the GREEN 8 GOLD® Body Harmonizer as general protection. It is worn directly on the body near the solar plexus and creates a gentle protective zone. You feel calm, refreshed, and balanced. The longer you wear it, the stronger your body’s own energy field will become.

**GENTLY DECONTAMINATING THE BODY**

The EMF Clearing Card was developed to gently decontaminate the body from time to time. Apply the colorful image face-down on your solar plexus for 5-10 minutes. By doing so, the card’s energy field resonates with the harmful energy in the body and discharges it. You will quickly feel relaxed and at ease.

**SLEEPING RESTFULLY**

Already Paracelsus knew that “a sick bed is a sure way to ruin your health”. The quality of the sleeping area is therefore an important component for an unimpeded, biological regeneration at night. The TRANSFORMER 28-4G raises the overall energy quality in the living space. However, if geopathic exposure, earth radiation, faults or water veins are present in the sleeping quarters it is important to protect that area additionally with the GREEN 8 GOLD®. It neutralizes the natural radiation effectively and thus provides a basis for restful sleep.

**ENERGY QUALITY MEANS QUALITY OF LIFE!**

BAUER BIOTEC INFORMATION 2014
TRANSFORMER T-22
In modern offices and private work spaces wireless transmission methods (WIFI-Router) for Internet access are used more and more. At your workstation, this technology exposes you to high levels of radiation over the course of a day and you should therefore consider adequate protection.
The T-22 neutralizes and harmonizes the pulsed energy emitted by the WIFI networks lastingly.

TRANSFORMER 22-30 creates a protective health-promoting and stress-free work zone in a radius of up to 10 m - TRANSFORMER 22-100 in a radius of up to 20 m. Discomfort such as headaches, heart rhythms, fatigue, inner tension, concentration loss, and sleep disorders disappears.

Users report that after the installation of a T-22 their energy level rose significantly and that they felt more mentally alert and more balanced. Work is more relaxed, sleep more sound, and live better.

T-22-30 plastic plate, 210 x 210 x 5 mm
T-22-100 plastic plate, 330 x 330 x 5 mm

GREEN 8 GOLD®

GREEN 8 GOLD® Large - Home & Office Harmonizer
To neutralize electromagnetic radiation and or geopathic stress we recommend the GREEN 8 GOLD® Home & Office Harmonizer. At your workstation placed under the desk or at the PC-Computer - it harmonizes EMF radiati-on very effective. For geopathic stress zones we recommend under the bed or couch one up to three GREEN 8 GOLD® Large - depending on the intensity. GREEN 8 GOLD® Large also for TV’s and to protect against Smart Meters which come up more and more to be placed close to the Smart Meter unit. The GREEN 8 GOLD® Home & Office Harmonizer has an effective range of up to 4 - 5m.
GREEN 8 GOLD® - foil 190 x 105 mm

GREEN 8 GOLD® Medium - EMF Harmonizer
Not only cell phones emit radiation. So do notebooks, tablet computers, CD players, microwave ovens in the kitchen, monitors, stereo systems. The EMF Harmonizer is advisable for all areas where electromagnetic radiation is emitted by electronic devices.
Placed in the fuse box it neutralizes emissions caused by electric current and acts as a demand switch neutralizing all electrical connections.
A simple but intelligent solution in order to live in harmony with modern technology. Effective range up to 1,5 m in a radius.
GREEN 8 GOLD® - foil 85 x 50 mm

GREEN 8 GOLD® Small - Cell-/Smartphone Shield
The new thin GREEN 8 GOLD® high tech adhesive foil is designed for Cell-/Smartphones to neutralize very effective the unwanted pathogenic vibration of electromagnetic radiation, thus providing lasting protection from the known forms of discomfort and allowing trouble-free phone use.
The new GREEN 8 GOLD® - Cell-/Smartphone Shield was optimized and adapted to the latest 3G/4G LTE technology and thus harmonizes the increased exposure.
The new GREEN 8 GOLD® is therefore recommended especially for all Cell-/Smartphones, Baby Monitors and Tabletcomputers like IPAD.
GREEN 8 GOLD® Small - foil 28 x 40 mm

**Radiation protection to neutralise your home, office, clinic, animal stables - horses, cows etc.**

- Distance: up to 33 meter in a radius = W
- Distance: up to 66 meters in a radius = H

**Any electronic device**

- Distance: up to 33 meter in a radius = W
- Distance: up to 66 meters in a radius = H

**Computer workingplace including**

- PC - monitor - printer protected area 4 - 5 meter
- Geopathic stress
- Ground radiation - water vines - Hartmann, curry net...
- For bed, couch
- Complete apartment
- Complete house
- Sometimes T 28 + G-80 large necessary by testing
- Smart meter

**General body protection**

- Travelling, subway, bus, restaurant, city:
  - Basic and premium same function
  - Differences: design & price
  - Inner nervousity - Stress feeling
  - EMF contaminated photovoltaik on the roof
  - Photovoltaik park
  - Travelling in the plane
  - Hotel room - geopathic stress - WIFI

**Blocks - to be reached from neighbours**

- More than 10 WIFI - routers
- Up to 10 WIFI - routers

**Inside the car, bus, truck**

- GPS - Bluetooth - Mobile-/smartphone
- Car electronic

**Recommended product**

* ALWAYS THE RIGHT CHOICE*
What do these products do with the radiation?
The stored frequency/information of the product is changing the radiation in such a way that it will be harmless to the human body.

- GREEN 8 GOLD® is TRANSFORMING/NEUTRALISING/HARMONISING the radiation.

How can the effectiveness be proved?
Only by measurement of the body meridians – the body does not lie!
See the live test we have done by different biofeedback systems like: PROGNOS, BIO-MERIDIAN, ACUPRO.
Physical measurement test methods are not able to show the effect.

„Harmonising“ of electromagnetic radiation
- what does it mean?
„Harmonising and Neutralising” of electromagnetic radiation means that the electromagnetic frequencies/radiation are no longer harmful to the human body or any biological system.
- Radiation frequencies are harmonised or neutralised if they are compatible to the humans’ own biological frequency.

How do these products neutralise radiation?
The harmful radiation will be neutralised by changing the negative polarity to a positive polarity of the EM-radiation.
- GREEN 8 GOLD® creates an INVERSE INTERFERENCE against the unwanted pathogenic frequency.
- information eliminating the harmful side effects for the human body.

What are these products TRANSFORMING?
The characteristic of the radiation polarity.
- Any influence to the human body which does not relate to the body’s own biological frequency.
- will create stress and „negative effects”.

How are these products doing the radiation?
The harmful radiation will be neutralised by changing the negative polarity to a positive polarity of the EM-radiation.
- GREEN 8 GOLD® creates an INVERSE INTERFERENCE against the unwanted pathogenic frequency.
- information eliminating the harmful side effects for the human body.

Physical Test Methods
The traditional expectation to measure the radiation is – that the radiation values should change with the use of a radiation protection product.
But this will not happen – why?
The radiation is still there – radiation can’t be taken away. These products will neutralise the harmful effects of the radiation.

What is important?
- Any bad feelings such as having Headaches, Hot Ears and any kind of pain will disappear – this is the best proof for any person.
- To see the effectiveness of the products – watch the live test video (www.green8.eu).
- The products last a Life time unless damaged but manufacturer recommends to change them every 2-3 years – concerning wireless technology changings by the industry.
- Every human body is different – hence different results.
- The products are protecting against cell damaging.
- The products will not only balance but also send additional positive energy.
- All these answers are given based on the actual performance of the products, the actual knowledge, and several tests done in many countries in the world.
- Qualified Testing was done 1999 & 2000 by the „Institute of Potential Research“ in Vienna – using the PROGNOS SYSTEM (developed by Russian Air Space Industry for their astronauts).
- The Test was done with several humans based on the biofeedback Test method – Testing the stress factors of the body with and without GREEN 8 as protection tool – the test shows in a diagram the impressive different results.

BAUER BIOTEC INFORMATION 2014
The TRANSFORMER 28-4G-W is helping my family a lot, and has made a big difference to the amount of time we can spend at home, as well as there being a decrease in the amount and severity of ES symptoms. We go to both a regular GP and a traditional Chinese doctor (for acupuncture etc). Our Chinese doctor has long joked with my wife that she is ‘weak – no pulse’; and mother-in-law has had a weak pulse for some time as well. A few days after we had the transformer, my wife and mother-in-law went to their Chinese doctor and she checked their pulse. We did not tell the doctor about the transformer. It was the first time in almost 2 years that the doctor told my wife that she seemed to be getting a bit stronger and she could feel the pulse – same with mother-in-law. The improvement has gradually continued over the weeks, and the doctor says there is now a lot of improvement! Also my wife has not been able to sleep naturally in our home since 2008, but over the last month or so, she has started to have a few hours natural sleep at home. These are just a few examples. We’d like to thank you very much for this product! Thank you again for your time and your help.

Steve and Family, Dudley, UK

YOU HAVE CHANGED OUR LIFE!
POSITIVE FEEDBACK FROM ALL OVER THE WORLD.

"For the past 2 years, I have been using the small green 8 for my cell phone and the TRANSFORMER 24 EMF Radiation Body Protection because in my work field I am surrounded by many electronic devices that emit electromagnetic radiation. I had first noticed the positive effects of the small green 8 with my cell phone for my ‘hot’ ear syndrome disappeared. At work, my fatigue and headaches were distinctively less because of the neutralisation effects from wearing the Body Harmonizer."

Donna, New York, USA

"GREEN 8 GOLD Small for Mobile Phone Protection I have only been using the GREEN 8 GOLD for my mobile, for about two weeks. I immediately noticed that during long mobile conversations the old burning sensation has disappeared. For that reason alone, I feel better! I am thinking of purchasing more for my family, and just inserting them into their phones, especially for those non-believers!"

Ruth, Hong Kong, China
TRANSFORMER 28 – All symptoms such as headaches, sleep disorder, burning skin, nausea, unusual fatigue, nervousness, echo in the ears... all these symptoms disappear 1 – 4 weeks after installing the TRANSFORMER 28. Nervousness, stomach problems, hyper sensitivity, echo in the ears are balanced and disappeared. I feel more energetic, peaceful and relaxed. I am very grateful for these wonderful products. You really helped me a lot.

Marjuka, Helsinki, Finland

Since I use the GREEN 8 GOLD under my notebook all my symptoms have completely disappeared. I used to have bright red forearms... since I have been wearing the Body Harmonizer, I can do things I wasn’t able to do before. I can walk 2 miles without pain. Before that every step was agony. I was only able to walk very slowly, hard to imagine for normal people. Most of my troubles began when a digital mobile communication transmitter was installed in my area. Since I use the GREEN 8 GOLD and the Transformer 24 my health has improved significantly. I am so thankful for how much your products have improved my quality of life.

Anne, Portland, USA

As soon as I installed the TRANSFORMER 22 in my apartment, my heart rate normalized and the palpitations stopped. Before I had the TRANSFORMER, I could honestly feel it in my heart when the WIFI was on and off. We are surrounded here by 9 WIFI networks. Therefore, I decided to buy the T 22-100. I much appreciate its effect.

Christine, Berlin, Germany

I use the Green 8 GOLD in my cordless phones and I wouldn’t use a cordless phone without them. My two children both are so sensitive to cell phone use that they both get headaches whenever they use their cell phones. My son gets a headache as soon as he holds the cell phone near his head and the Green 8 have stopped that. Although I don’t get headaches, I know the Green 8 work and I use them in my cell phone and my home cordless phone.

Sheila, Chicago, USA

For 2 months I have been using the GREEN 8 GOLD for my cell phone and the cordless DECT phone. When I first used these phones I always got headaches. Since I have installed the GREEN 8 GOLD in both phones my symptoms have disappeared completely. I am very happy about that and can absolutely recommend this product based on my experience.

Peter, Amberg, Germany

YOU HAVE CHANGED OUR LIFE! POSITIVE FEEDBACK FROM ALL OVER THE WORLD.
The Green 8 GOLD products and Transformers have been extremely effective in helping me create an atmosphere at home where my body can start to recover from the effects of all the electropollution. We live in an extremely challenging area - we have mobile phone masts and also the electromog from the shipping in our area. From being bedridden and extremely ill, with thyroid and other hormonal problems, plus chronic insomnia, irregular heartbeats and breathing problems, plus multiple allergies - including the electro hypersensitivity - I am now so much fitter. My thyroid and other hormone problems are now completely resolved. My sleep is vastly improved and I wake up refreshed. I have lost the sense of weariness which plagued me. I no longer have bradychardia or irregular heartbeats. My allergies are now virtually gone. I can now use my computer and phone without the tingling and fatigue washing over me. And more importantly I can now go out and about without the electro stress - so I have been able to rejoin the world. The Green 8 products have allowed me to heal - the nutrition and other remedies now work because my body has the energy it had been drained of by all the electropollution. Green 8 products are the vital foundation for health.

The EMF clearing card is excellent - and I find that when you place it over different organs of the body it acts like a mini acupuncture session and seems to get energy shifting. The Green 8 Medium has been great for sorting out the problem of wire sprung mattresses - if you are electro hypersensitive, you are generally advised not to use a wire sprung mattress because of the EMF it holds. Using Kinesiology to test, we found that placing a Green 8 Medium under the mattress stopped the EMF from stressing the body; a much cheaper solution than changing your mattress. So thank you for your time, advice and the Green 8 GOLD® products which have been a vital part of my recovery. In my case a real lifesaver!”

Mandy, Hampshire, UK

I never felt really well while living in this house (I moved here 3 years ago) I felt very fuzzy headed and tired even after being treated for hypothyroidism. My daughter also used to sleep for many hours during the day. Since we installed the 2 Transformers-28 I had noticed an increased sense of clarity and energy even during the hayfever and virus and my daughter was up during the day and energetic. Just to test I wrapped the two transformers and put them away overnight. WELL the next day I could hardly lift my head from the pillow I slept virtually all day, and felt very thick headed, my daughter also the same symptoms and she had no idea I had put the transformers away. Replaced the transformers and today we feel fine again. I must say I was cynical but having experienced the difference during one day I now realise how bad I must have felt before never realising it was due to various magnetic energies.”

Linda, London, UK

We have lived for many years in house close to the Thames...and we’ve both had health problems. I was recommended a geomancer and dowser who opened my eyes to the problems of electromagnetic stress. My dog is epileptic and during this last rainy period has been crying at night, which was unusual for her. It was not until I bought the large Transformer 28-3G-H that I realised her sleep problems, and mine, and other health problems accumulating over 20 years, are probably connected to the electromagnetic stress we’ve been living with. Hoover, the dog, would often go outside and sit in the garden and refuse to come in when we had heavy rain, she obviously suffered more with the electromagnetic field was intensified with heavy rain. The minute I set the Transformers-3G-H to magnetic north I felt a sensation of colossal relief. Hoover now sleeps well and even goes to lie beside the Transformer-28. My sleep is radically improved, even within a week. I carry my Green 8 Gold Large with me wherever I go now. I feel immensely fortunate to have found BAUER BIOTEC Products and to have a house, which I have always loved, now covered with a sense of peace.”

Clare, Bucks, UK
“My health started to deteriorate over two and a half years ago and initially started when I had a cough and cold, it got worse and lasted months. The worst came in September 2013. Constant headaches, extreme fatigue, abdominal pain, unsteady on my feet at times and a very scary unwell feeling is the only way I can describe it. To cut a long story short I found out it could be radiation causing the problem after having a live blood test (I live near a pylon) and I purchased, two green 8 larges for under my bed, a body harmonizer and a Transformer for the whole house.

“Just over two weeks after installing the Transformer 28-4G-W I woke up one particular day feeling much better. Each day since I have improved, my symptoms have gone. I feel like ‘me’ again. I can do normal things again, I can work normally, go out normally and live normally!!! I cannot express my gratitude enough for these products. I have to admit I was sceptical at first but I was willing to try anything and it is no coincidence that I am now so much better.”

Liz, Plymouth, UK
